

2017 Topical Module: First-Year Experiences & Senior Transitions

Profile of Participating Institutions and Respondents and All Bachelor's-Granting U.S. Institutions and Students

Topical modules are short sets of questions on a topic related to current issues in higher education and student engagement that may be appended to the core survey. The **First-Year Experiences and Senior Transitions** module examines class-specific issues. The first-year items focus on academic perseverance, help-seeking behaviors, and institutional commitment, while the senior items explore post-graduation plans, links between the academic major and future plans, and confidence in skill development. In 2017, 175 U.S. institutions elected to append these items to the core survey. Of these, 168 belonged to one of the eight Carnegie classifications shown in the table below.^a

The institutions and respondents participating in a given module are only a subset of all NSSE participating institutions and respondents. The table below displays the characteristics for module participants alongside NSSE 2017 participants as well as all bachelor's-granting U.S. institutions and students (all limited to the eight indicated Carnegie Classification categories).
