

## 2017 Topical Module: Learning with Technology

### Profile of Participating Institutions and Respondents and All Bachelor's-Granting U.S. Institutions and Students

Topical modules are short sets of questions on a topic related to current issues in higher education and student engagement that may be appended to the core survey. The **Learning with Technology** module examines the role of technology in student learning, focusing on student use of technology and perceptions of institutional support. In 2017, 29 U.S. institutions elected to append these items to the core survey. Of these, 26 belonged to one of the eight Carnegie classifications shown in the table below.<sup>a</sup>

The institutions and respondents participating in a given module are only a subset of all NSSE participating institutions and respondents. The table below displays the characteristics for module participants alongside NSSE 2017 participants as well as all bachelor's-granting U.S. institutions and students (all limited to the eight indicated Carnegie Classification categories).

a. All numbers are unweighted and based on U.S. postsecondary institutions that award bachelor's degrees and belong to one of the eight Carnegie Classification categories in the table. Totals may not sum to 100% due to rounding.

b. U.S. percentages are based on the 2015 IPEDS Institutional Characteristics file.
