

NSSE 2018

Administration Summary

NSSEville State University

This page intentionally left blank.

Administration Summary

This report provides an overview of your NSSE administration, including details about your population and sample, response rates, representativeness of your respondents, survey customization choices, and recruitment message schedule. This information can be useful for assessing data quality and planning future NSSE administrations.

Population and Respondents

The table at right reports your institution's population sizes, how many students were sampled (whether census-administered or randomly selected), and how many completed the survey.

Survey completions	<i>First-year</i>	<i>Senior</i>
Submitted population	606	508
Adjusted population ^a	584	503
Survey sample ^b	582	501
Total respondents ^b	296	206
Full completions ^c	264	191
Partial completions	32	15

- a. Adjusted for ineligible students and those for whom survey requests were returned as undeliverable.
b. Number of census or randomly sampled students invited to complete the survey. Targeted, experimental, and locally administered samples not included.
c. Submitted demographic and (if applicable) Topical Module sets.

Response Rate and Sampling Error^a

The table below summarizes response rates and sampling errors for your institution and comparison groups. For more information see NSSE's Response Rate FAQ: nsse.indiana.edu/pdf/Resp_Rate_FAQ.pdf

	<i>First-year</i>				<i>Senior</i>			
	NSSEville State	Admissions Overlap	Carnegie UG Program	NSSE 2017 & 2018	NSSEville State	Admissions Overlap	Carnegie UG Program	NSSE 2017 & 2018
Response rate	51%	36%	36%	24%	41%	39%	37%	24%
Sampling error ^b	+/- 3.7%	+/- 1.1%	+/- 0.8%	+/- 0.2%	+/- 4.8%	+/- 1.1%	+/- 0.9%	+/- 0.2%

- a. Comparison group response rate and sampling error were computed at the student level (i.e., they are not institution averages) for all respondents.
b. Also called "margin of error," sampling error is an estimate of the amount a score based on a sample could differ from the true score on a given item. For example, if the sampling error is +/- 5.0% and 40% of your students replied "Very often" to a particular item, then the true population value is most likely between 35% and 45%.

Representativeness and Weighting

The first table at right details variables submitted in your population file. Respondent and population percentages are listed side by side as a convenience to see how well the characteristics of your respondents reflect your first-year and senior populations. For detailed characteristics of the respondents in your reports, refer to your *Respondent Profile*.

NSSE data files include weights by institution-reported sex and enrollment status so institutional estimates reflect the population with respect to these characteristics. The second table at right provides the respondent and population proportions used to calculate your weights. For more information, see nsse.indiana.edu/html/weighting.cfm

	<i>First-year</i>		<i>Senior</i>	
	Respondent %	Population %	Respondent %	Population %
Female	61	61	70	62
Full-time	100	100	100	100
First-time, first-year	99	99	N/A	N/A
Race/ethnicity ^a				
Am. Indian or Alaska Native	0	0	0	0
Asian	8	8	7	7
Black or African American	2	3	2	3
Hispanic or Latino	6	7	6	5
Native Hawaiian/Other Pac. Isl.	0	0	0	0
White	68	67	76	74
Other	0	0	0	0
Foreign or nonresident alien	12	12	7	8
Two or more races/ethnicities	3	3	2	3
Unknown	1	1	0	0

- a. Based on the IPEDS categories submitted in the population file. Results for institutions without full (at least 90%) race/ethnicity information in the population file are not reported.

	<i>First-year</i>		<i>Senior</i>	
	Respondent %	Population %	Respondent %	Population %
Full-time, female	61	61	70	62
Full-time, male	39	39	30	38
Part-time, female	0	0	0	0
Part-time, male	0	0	0	0

Population File

Your institution provided a population file for survey administration and was afforded an opportunity to update it.

Population file options

Included "group" variable(s) ^a	Yes	Identified students who completed BCSSE 2017 ^d	Yes
Identified an oversample ^b	Yes	Customized the report sample ^e	No
Updated to identify ineligible students ^c	Yes		

- a. Institutions had the option to include additional variables in the population file for oversampling or for *post hoc* analyses. Up to five group variables were allowed. If formatting specifications were met, Group 1 can be used in the Report Builder–Institution Version.
- b. Institutions that did not census-administer to first-year and senior students had the option to oversample a segment of their population. Oversamples may also be used to survey students in other class years.
- c. Institutions had the option to update their population files to identify students who did not return to campus in the spring or otherwise did not meet NSSE eligibility criteria.
- d. Institutions that participated in the Beginning College Survey of Student Engagement (BCSSE) can identify BCSSE survey respondents in their NSSE population file. This information is required to receive the longitudinal results in the *BCSSE-NSSE Combined Report*.
- e. Institutions had the option to flag a subset of students for exclusion from reports, but all sample members were invited to complete the survey. For details, visit: nsse.indiana.edu/html/customization_options.cfm

Survey Options

The options at right were available to customize the content of your NSSE survey and to collect complementary data from companion surveys.

Administration features

Survey sample type	Census
Recruitment method	Email
Portal/LMS used ^a	No
Incentive offered	Yes
Survey version	U.S. English
Institution logo used in survey	Yes
Mobile respondents ^b	140, 28%

Additional question sets and companion surveys

Topical module(s)	Writing Experiences
Consortium	None
BCSSE 2017	Yes
FSSE 2018	Yes

- a. Institutions that used their student portal or learning management system to recruit students are indicated by “Yes” followed by the number and percentage of respondents who used posted survey links.
- b. Number and percentage of students who responded with a smartphone or tablet. See the “operating system” variables in your SPSS data file for additional details.

Recruitment Messages

Students received up to five direct contacts. Your institution had the option to customize message content and timing.

Message schedule

	Date	Cumulative response rate	
		First-year	Senior
Invitation	02/14/2018	15%	11%
Reminder 1	02/22/2018	31%	25%
Reminder 2	03/02/2018	38%	31%
Reminder 3	03/08/2018	47%	37%
Final reminder	03/20/2018	51%	41%

Report Customization

Your institution had the option to customize the comparison groups used in reports. The group selected for the *Snapshot* comparisons is identified with an asterisk.

Comparison groups for NSSE core survey reports

Group 1	Admissions Overlap* (customized, N=30)
Group 2	Carnegie UG Program (customized, N=53)
Group 3	NSSE 2017 & 2018 (default, N=943)

Comparison groups for additional question set report(s)

Topical Module: Writing Experiences	Writing Experiences (default, N=93)
-------------------------------------	-------------------------------------
