WMU, in conjunction with the NSSE (National Survey of Student Engagement) will be sending online surveys to a random sample of 5,000 first-year students and seniors in mid-January. It is completely anonymous and only takes 15 minutes to complete online. Your answers will provide a snapshot of the undergraduate experience from a student’s perspective and give WMU the opportunity to meet evolving needs.

The questions are easy.
The impact is great.
Let your voice be heard.
