

NSSE's *Global Learning* module assesses student experiences and coursework that emphasize global affairs, world cultures, nationalities, religions, and other international topics. The module is appended to and complements items on the core NSSE questionnaire about student experiences with people from different backgrounds, course emphasis on integrative and reflective learning, and participation in study abroad. It is designed to complement the American Council on Education's 2016 edition of the *Mapping Internationalization on U.S. Campuses* survey. Launched in 2016, the *Global Learning* module replaces the retired *Global Perspectives* module.
